

Seven Reasons to Switch to Comet Pumps

- 1 Exclusive electro-dipped plastic coating penetrates aluminum for maximum corrosion resistance.
- 2 Valve inspection plugs.
- 3 Plastic inlet adapter will not corrode.
- 4 Angled discharge outlet so pump and engine can be mounted at an angle to save space.
- 5 Hex head bolts for easy maintenance.
- 6 Exclusive DURAphragm Technology for maximum diaphragm life.
- 7 Plastic rings behind discharge manifold to protect crankcase from corrosion.
